Higher Education Emergency Relief Funding (HEERF) Proposal Recommendation

Please submit this form with any recommendation for Higher Education Emergency Relief Funding (HEERF). Proposals should identify clear goals, objectives, and quantifiable metrics. There are strict federal guidelines on how HEERF funds can be utilized. More information can be found on the U.S. Department of Education HEERF Funding *main page*, along with an extensive FAQ *here*.

Proposals that are determined to be an allowable use in accordance with the United States Department of Education guidelines will be made available to the college community for comment. Submission of proposals does not guarantee approval or appropriation.

Proposal Title: Video / Audio / Graphics Equipment for Digital Media courses in the Department of Art, Art History & Design

Name: Daniel O'Neill

Position Title: Assistant Professor

Department: Art, Art History & Design

Email: djoneill1@ccri.edu

Is this purchase in response to COVID-19? Yes

Was this part of your departmental budget prior to COVID-19? No

If yes, how much was allocated for this purpose? N / A

There are **five main categories**, and your proposal must fall under one of the following. Please choose which category your proposal falls under: Instructional Equipment and Supplies

Please explain how your proposal fulfills the purpose of the category you selected, what the current barrier is, why this proposal is needed to address that barrier, and how this proposal furthers the college's goal of creating a more equitable institution.

We currently own a limited amount of this equipment, which means that students share the equipment in the classroom. Due to COVID, we need to avoid sharing equipment, and cleaning this sensitive electronics is not feasible. Currently we do not own enough equipment to allow every student who needs equipment outside of class time to borrow equipment. While some students are able to purchase this equipment, many students are not. By ensuring that every student in the class has access to the same professional equipment, this proposal will help make CCRI a more equitable institution.

Proposal Description (Attach additional documents above as needed):

This proposal is to purchase additional quantities of video, audio, and graphics equipment already used in these courses, and two cabinets (one for Knight campus and one for Flanagan campus) to store the equipment. Attached is a spreadsheet of the individual price, quantity, and extended price of each item.

Please explain how the proposal aligns with one (or more) of the goals outlined in the Strategic Plan.

X Goal 1: Enhancing Student Success and Completion
Goal 2: Expanding Partnerships and Programs
Goal 3: Strengthening Institutional Effectiveness

By ensuring that every student in the class has access to the same professional equipment, this proposal will help make CCRI a more equitable institution. By enabling students to borrow equipment for a semester, this proposal ensures that students have ampe access to complete coursework within their own busy schedule, and to not be rushed in the use of equipment to complete coursework.

Please outline quantifiable metrics of this proposal:

1. Pass Rate
2. Completion Rate
3. Graduation Rate
4. Quality of Student Work

How will this proposal be sustained after the HEERF funding period?

N / A
