The Curriculum Review Committee met on October 20th to review proposals from the Performing Arts, Math, English, Allied Health, Dental Health, and Rehabilitative Health departments. Proposals from the English and Rehabilitative Health Departments were tabled.

Vice President Costigan returned the experimental course from Rehabilitative Health, as well as the Radiography program and courses proposed from Allied Health, postponing approval subject to a review process.

Copies of all approved proposals are on file in Academic Affairs and are reflected in the attached Tracking Forms approved by President Hughes and Vice President Costigan.
