

DENTAL HEALTH ALUMNI CONTINUING EDUCATION PROGRAM

Aiming for Success: Radiographic Techniques from Analog to Digital

Keynote speaker

Marianne Dryer, RDH, MEd

*a DENTSPLY professional clinical educator
serving the Northeast region*

Radiography lab students

Class of 1990

Class of 2007

Attendees will be awarded 2 CEUs.

The event is presented by CCRI Dental Health Department. Sponsors include the Community College of Rhode Island, CCRI Foundation, Office of Student Life and DENTSPLY.

8 a.m. to 1 p.m. / Saturday, April 18

**CCRI Flanagan Campus, Room 1336
1762 Louisquisset Pike, Lincoln, RI 02865**

Advances in technology have made a significant impact on the field of dental radiography. It is beneficial for dental practices to understand the basic principles of intraoral radiography and modifications new technology requires so they can make a smooth transition. This course provides dental professionals with techniques to use with their current technology, analog or digital, to produce quality, diagnostic images on the first exposure.

On-site tours of the clinical facility will also be available. Continental breakfast will be provided.

Event is free to CCRI Dental Hygiene or Dental Assisting Alumni.
General admission cost is \$20. Seating is limited. Those who would like to attend must **register by Monday, March 30.**

Anyone with questions should contact Karen Souza at ksouza2@ccri.edu or 401-333-7438. Visit www.ccri.edu/dentallecture to learn more and to register online.
