Kevin Crawford
400 East Avenue
Warwick, Rhode Island 02886

Dear Kevin Crawford,

It is with esteemed pleasure that we recognize the students and faculty from Community College of Rhode Island for their prestigious efforts during the National Cyber League (NCL) Fall 2023 Competition Season.

The NCL, powered by Cyber Skyline, is a cybersecurity skills competition that contains real-world cybersecurity tasks that professionals perform on a daily basis. Students who participate in the NCL reinforce their learning and develop the necessary skills for the workforce. Students also earn a skills report that recognizes their abilities and can be shown to an employer to demonstrate the student's readiness for the job, further bridging the gap from curriculum to careers.

Students from Community College of Rhode Island, coached by Professor Joseph W Bransfield II, participated in individual and team-based events and the school placed #71 nationally in the Cyber Power Rankings among over 8,580 students from 510 colleges and universities in the NCL Fall 2023 Season. We would like to recognize the following students for their outstanding performance; Jarod Zina, Andrew Lewis, Jack Bowdy, Isaac Dunning, Amir Mohammad.

Their collaborative effort and dedication to the NCL Competition is worthy of praise and recognition. It is with our highest recommendation that students from Community College of Rhode Island be recognized for their admirable achievement that showcased their individual skills, collaborative performance, and desire to grow and learn as cybersecurity professionals. We would also recommend the recognition of Professor Joseph W Bransfield II for their dedication, support, and encouragement that has enabled the success of the students from Community College of Rhode Island.

We appreciate your time and consideration to acknowledge these well-deserving students and faculty in their incredible efforts for the NCL Fall 2023 Season.

David Zeichick
