

EXAMPLE: TFTP on Cisco 4331

```
Router(config)#ip tftp source-interface g0/0/0
```

```
Router(config)#end
```

```
Router#copy running-config tftp://10.0.0.2/TEST_CONFIG
```

```
Address or name of remote host [10.0.0.2]?
```

```
Destination filename [TEST_CONFIG]?
```

```
!!
```

```
1403 bytes copied in 0.312 secs (4497 bytes/sec)
```

```
