

Picking the math courses that fast-track you towards your goals?

It's as easy as 1-2-3.

Nursing or Rehabilitative Health MATH PATHS

If your goal is to enter the Nursing program, you'll want to complete the following courses within the Developmental Math Emporium:

MATH 0095
(MATH 0099 and 0100)
Developmental
Math Emporium

If you're interested in a career or transfer program in **NURSING or REHABILITATIVE HEALTH**, the charts to the right show you which classes to take to begin your path.

For a full list of math requirements for the program you are in, please make sure to reference the college catalog.

About Math 0095

All CCRI students are required to take the ACCUPLACER placement test before registering for classes. If the test shows that you need to strengthen your math skills, you'll need to enroll in MATH 0095, our "Developmental Math Emporium."

The **Math Emporium** at CCRI is a new and innovative classroom model where students can master developmental math topics needed for credit bearing courses. Using ALEKS, an artificially intelligent assessment and learning system, and individual, on demand, one-on-one instruction from faculty members, students will have the opportunity to complete all of their developmental course work in one semester.

If your goal is to enter the workforce in the Occupational Therapy Assistant, Physical Therapy Assistant, or Therapeutic Massage associate degree program, you'll start with one of the following courses:

MATH 0095
(MATH 0099)
Developmental
Math Emporium

MATH 1025
Introduction
to College Math

If you plan to enter the workforce after earning an associate degree in Opticianry, you'll want to start with one of the following courses:

MATH 0095
(MATH 0099, 0100, 0101)
Developmental
Math Emporium

MATH 1179
Applied Technical
Mathematics I

If your goal is to transfer to a bachelor's degree program after earning an associate degree in Opticianry, aim to start with one of the following sequences:

MATH 0095
(MATH 0099 and 0100)
Developmental
Math Emporium

MATH 1200 and 0200
College Algebra
with Support

— OR —

MATH 0095
(MATH 0099, 0100, 0101)
Developmental
Math Emporium

MATH 1200
College Algebra
