

AGENDA/MINUTES for NEASC Standard 7

May 17, 2013
10 AM - 12 PM
Lincoln Campus

Members Present: Kathleen Beauchene, MaryAdele Combe, Ruth Sullivan, Marla Wallace, and Jim Salisbury

The convened members reviewed the Standard 7 NEASC March 8th document that was sent to Lela. We had hoped to have received feedback on it by May 10, but we did not. In lieu of that, we moved forward to review the submitted document for key revisions.

1. Grammar
2. Conciseness – Can sentences be constructed so that they are less wordy?
3. Items to be deleted. Have items been covered by other Standards or elsewhere in the document?
4. Clarifications – MaryAdele will be checking with Steve on staffing structure and nomenclature.
5. Any other additional material needed? Does any information need to be updated? For example, as of now, both open IT instructional design positions have been filled and the Computer Studies Department has drafted a definition of Technological Literacy.

Once we receive feedback, we will forward it to the entire committee.
