

Nancy Robert Dooley, Ph.D., OTR/L Physical Therapy

Nancy Dooley was raised in Cumberland and has been an occupational therapist for 28 years. Her practice has focused on the needs of people with serious and persistent mental illness and on older adults facing multiple challenges to their health and independence. After almost 20 years as a professor and director at New England Tech, she is now an Associate Professor in the occupational therapy department at Worcester State University. Nancy holds master's and doctoral degrees from New York University.
